High Temp Grafoil® Seals & Gaskets !!!!

*The best thing to happen to the sealing and gasket industry over the last 10 years has got to be **Flexible Graphite or Grafoil®** and we handle all types. Including: Sheet, Ribbon, Braided and Ribbon Pack. At one time it was only used in high temp applications, but like the computer your onthe prices have come down.*

Ribbon Pack used for Valves in the field, or to make die formed sets is one of Grafoil's® most common uses. Used in Refineries, Plants, Co-Generation Facilities or anyone dealing with high ten applications. We can deliver it to you in any dimension you choo

Flexible graphite, due to it's softness seals great but can also bre far. To make it easier to handle we offer it with a 316 S.S. foil in insert, or for easier cutting - no insert at all. Available in a range from automotive & Industrial to Nuclear.

[Grafoil® Grades](#)

[What is Grafoil® ?](#)

[Grafoil Spec](#)

Die formed sets for valves in applications that require the lowest rates. Now a standard in the valve industry because of it's effecti Carbon yarn end rings with die formed flexible graphite center

Thermabriad Temp: 1200 F Steam, 0-14 pH

A high temperature packing good for most applications. Now av this braided version that eliminates the need for dies. Great for l chemical applications (non-oxidizing) that can not leak. When y have the leak rate near that of a Mechanical Seal in a pump this packing to use.
